Introductions

Kevin Rudd MHR an Australian Politician in Australia, when his party was in Opposition in the Federal Parliament in Canberra challenged Kim Beasley for the job of Opposition Leader of the Labour Party.

He won, then he went around Australia playing **Mr. Nice Guy** to everybody all and sundry citizens in Australia, he made many promises and kept most of them when his party was elected at the 2007 Australian Federal Elections.

In his Election Speech before 23 Million people the first people he thanked was **The United States of America** as being the Greatest friend to Australia & The Australian people.

Which Amounts To Treason Under: - Commonwealth Of Australia Constitution Act

Chapter I. The Parliament.

Part IV - Both Houses of the Parliament

43. A member of either House of Parliament shall be incapable of being chosen or of sitting as a member of the other House.

44. Any person who –

- (i) **Is under any acknowledgement of allegiance, obedience, or adherence to a foreign power**, or is a subject or a citizen or entitled to the rights or privileges of a subject or citizen of a foreign power

Remember what happens by the rules when The Governor General Dismiss Federal Parliament and either Half of the Senate or The Full Senate for and Election to be held.

And people nominate to stand before the **“We The People”** asking our permission to trust them and vote for them and send them to Canberra to work for us **“We The People”**

Each and every person who was sitting in either chamber House of Representatives or The Senate **“Reverts Back”** to becoming an everyday citizen.

So there is **Kevin Rudd** before 23 Million people on every Major TV Network, Newspaper, Radio **"Declaring / Pleading His" allegiance, obedience, or adherence to a foreign power** that being The United States Of America.

- Who is controlled by The Zionist Jewish Bankers, The Globalist, Some Big Fortune 500 Companies, The Military Industrial Complex, The Lying Mainstream Media and AIPAC The (Fake Jewish Lobby)

To name but a few.

- Did anybody say anything from the Media? **NO**
- Did any other Political Party say anything? **NO**
- Did ASIO, Australian Federal Police, The Commonwealth DPP, and State Premiers at the time, did anybody even say anything?

NO So here we have A person on stage an ordinary citizen who party of members standing won the vote after counting, and not even before 75 – 80 % of the vote counted is on stage declaring his **allegiance, obedience, or adherence to a foreign power**

The Legal Word Here is Attained

Simply meaning declaring himself either Guilty or Innocent

So using the Word **"Attained"** in this instance **Kevin Rudd** was declaring himself **"Guilty As Accused"** of Breaching and Breaking that above Law again.

Commonwealth Of Australia Constitution Act

Chapter I. The Parliament.

Part IV - Both Houses of the Parliament

43. A member of either House of Parliament shall be incapable of being chosen or of sitting as a member of the other House.

44. Any person who – **Is under any acknowledgement of allegiance, obedience, or adherence to a foreign power,** or is a subject or a citizen or entitled to the rights or privileges of a subject or citizen of a foreign power.

This is what a joke Australia has become on the World Stage and if the Truth Of what **Australian Citizens** really think about this **“Corrupt 2 Party System”** would shock allot of these people in Canberra, so instead of asking the **Australian People** directly how much do you like me, they conspire with The Mainstream Media and others to put out **False – Fake Survey’s** to make themselves look popular. = **A Lie.**

Who are these frauds that come before us **“We The People”** and say they will serve us **“We The People”** and instead after elected put up their own hidden away policies, and those of their Parties, and of The Zionist Jewish Bankers & Globalist **who are trying to take over Australia as you read this.**

Have these people got **NO Shame?**

Are these people just to **Money Hungry and Power Hungry** they will lie, their way into Office and then once there.

Turn about and give us **"We The People" The Royal Middle Finger** and say get stuffed, throw me out, which you cant because if you tried.

They would order All Organs of The State out against us **"We The People"** Police, Military, Intelligence Agencies, then break the **"Separation Of Powers"** un – written Laws and order every Federal Government Dept to attack us.

Then order the **"Controlled Lying ABC TV & Radio Outlets"** to attack us too inventing stories and really doing a hatchet job on us.

Moving On - Many, Many, Many people in Australia were hoping of big things of the New Elected Prime Minister, similar to Gordon Brown over in England and soon to come on stage **(The False – Lying Black Pope Barrack Obama)**

- 1)** First thing Kevin Rudd did was to remove Australian Military from Iraq **(Tick Well Done)**
- **A Wrong, mistake made** was then **NOT To Order All** These Aussie Troops to a Special Medical Hospital for Blood Samples, and DNA samples be taken and check to see if they had gotten **"DU Poisoning"** and if so get them onto treatment now to **"Stop Them Getting Cancer & Becoming Sterile"** in the future and dying.
- Instead we have another **"Agent Orange"** from the Vietnam War which will be played out in the political on scene for the **next 30 – 60** years like what happen there deny any Troops got **"Agent Orange"**

Mistake Covered, Corrected but still being researched & investigated.

NO

I am not going to say more, because if I do or anybody does we will end up like some of the other **400 Microbiologist, Scientist World Wide** which have been assassinated & killed World Wide since about mid 1990's.

- At the moment some of us behind the scenes in Australia are trying to track down **"A Atomic Scientist Experienced in Human Biology and the Effects of being in or close to a Nuclear Bomb"** going off.

I think we have worded that right.

If anybody dares says more, or goes public that somebody is creating a few Natural Curers to repair these things.

They would end up like the two **Aussie Scientist murdered in cold blood** in Australia under everybody noses.

Woops! Study Accidentally Finds Chemotherapy Makes Cancer Far Worse

A team of researchers looking into why cancer cells are so resilient accidentally stumbled upon a far more important discovery.

While conducting their research, the team discovered that chemotherapy actually heavily damages healthy cells and subsequently triggers them to release a protein that sustains and fuels tumour growth. Beyond that, it even makes the tumour highly resistant to future treatment.

Break – Break - Break

We will get back to the story for **Kevin Rudd MHR** shortly, it would seem that America has shown its real colours and hand by joining forces with Israel and Israeli Prime Minister Benjamin Netanyahu = **(A Madman)** Who is behind BIBI = Zionist Greedy Talmud (Fake Jewish Bankers) + now Joined hands with the Globalist

I will explain more in a minute: -

Challenge To USA Black Pope **Barrack Obama – Waiting** **Answer!**

The Following Challenge To USA Black Pope President Barrack Obama – And I Await His Answer!

What Happens If – Just If I Have Another Plan

Tell us more!

Another Plan to Start A Revolution and Regime Change in Iran this time, leaving the Choice in the hands of **“WE The People”** of Iran to stage their own Revolution, and take back their lives, **FREE** themselves from their Slavery.

And leave the **(Present, Future, Destiny, Eternity)** in their hands **“We The People”** of IRAN.

While Your Thinking Black Pope **“Puppet – Stooge”**

First I publicly Declare before 320 Million Americans and people of the World that is 6.4 Billion of us **The USA Constitution is a Clever Fraudulent Copy** which was replaced back in **1871 under everybody noses** (Illegally and without consent of **“The American People”** permission!)

Therefore I have no choice but to come to the aid of 320 American people side and **“FREE Them From Slavery”**
Formally – Public Declare The Current Fraudulent USA Constitution and **All Laws written and passed** and that sit on the Statue Books that are derived from and written from that **Fraudulent Copy** are hereby **“Null & Void”** since this date in 1871 until this present date 23rd Nov 2012

Now not studying the **The Current Fraudulent Copy**, the Constitution also gives advise how to set up The Office of The USA Presidency Office.

Which means now, if I am correct The Office Of The USA Presidency is also (Null – Void – Invaded)

Which means anything, this Office or the people in this USA Black Pope President Barrack Obama administration does to hurt One Hair on any person living within the Borders of the United States of America.

Man Made Justice now Lawfully declared to be used against USA Black Pope President Barrack Obama administration And all those below him who take orders from the "Black Pope" and carry's them out.

Man Made Justice is higher then any "Silly Little Man Made Laws", Man Made Justice gives back to the rightful owners who is "WE The People" what "We The People" want to do with.

Liars, cheats, murders, traitors, Puppets, Stooges, Drunks, Perverts, Child Molesterers now "Empowered" to run the United States Of America for "We The People" but have failed.

Instead they got into bed with Evil, Evil, Evil Zionist (Fake) Jewish Bankers, The Media, The Security and Military Industrial Complex, AIPAC the Jewish Lobby the list is endless.

And instead of carrying out the wishes of "We The People" in each of our countries serving us, they took bribes, donations, holidays, were brought houses etc etc.

Where is the average Human being today?

“Starving & Trying To keep our heads above water”

So there for issue the following **advise** to the 6.4 Billion people of the World, when the **World Wide Controlled Media** get us to turn on our TV Sets, Read Newspapers, Listen to Radio's and cleverly scripted are prepared and given to every **Puppet / Stooge** installed in all our countries.

And turn see how World War 111 Plays out, after which will take all Western Countries around the World and put us all living in A Police State.

Think I am joking?

Then read here people, just read here what **Satan Army** hand in hand with **The Great United Snakes of America** did to people Palestinians in Gaza?

Palestinians – Arabs – Christians living in Gaza & The West Bank

=

What nobody tells people because of all the **lies**

These people living there = **Fellow Humans & Citizens of Planet Earth**

I want that to sink in very hard for a few minutes.

What it really means then if that is what they think of Palestinians – Arabs – Christians **(The Army Of Satan & USA)** look further behind you the **Puppet / Stooges** and the above list that control them.

Listen Very Hard: - Also think the same of Us Human Beings – Citizens living on Planet Earth.

With That All Said Read this: - This is all which wasn't said on the Mainstream Lying Media World Wide or by any **Puppet / Stooge Politician on the World Stage**

France: US Hacked into Computers in Sarkozy's Office

The United States hacked into the computers of the French presidential office in May, using U.S.-Israeli spy software, according to the French cyber warfare agency.

The French newsmagazine l'Express reported on Tuesday that a computer virus that bears the hallmarks of Flame compromised the computers of several close advisers to then-president Nicolas Sarkozy, including chief of staff Xavier Musca.

A U.S.-Israeli team targeting Iran's nuclear program allegedly created the virus.

Anonymous French officials blamed the United States for the attack, according to The Hill.

But

USA Black Pope Barrack Obama

Barrack Obama and every other lying cretin **"Puppet – Stooge"** around the World in all Western and European Countries and the UN are saying we need.

Hacker Laws – Cyber Security Laws written and past in all our countries to stop hackers from hacking into Police, Military, Intelligence Agencies etc, etc, Government Depts

Oi, Oi, Oi, Oi, Oi, Oi,

Seems **Black Pope USA President Barrack Obama** was lying and all the others followed along.

Read the story again people seems it was US Pentagon, FBI, CIA, NSA and every other **A, B, C, D, E** doing the hacking around the World.

While On Disclosures: - Everybody remember **Black Pope USA President Barrack Obama** Birth certificate issue seems we can put that to rest too once and for all.

Black Pope USA President Barrack Obama

Was not born in America, he was born in Africa in a Hospital there.

Go back to that time, Barrack Obama mom was pregnant with him and Air Line Policy was Pregnant women after a certain stage in carrying were refused passage to fly.

So after Barrack Obama was born, then his mom flew to Hawaii registered his birth there.

Black Pope USA President Barrack Obama

Now for the question and information about that birth certificate released to say **"The Black Pope"** is an American **(WRONG)**

(WRONG)

Ask > > > > > Israeli Prime Minister Benjamin Netanyahu, he ordered a Special Team to come together and investigate that birth certificate at Jerusalem University they proved, concluded 1000% - 1 Million % it was a poor Photo Shop Copy, they even go into details what Computer Software was used to create it.

Ask > > > > > Israeli Prime Minister Benjamin Netanyahu he was going to use it over **"The Black Popes"** head to threaten him into attacking Iran and get World War 111 started.

Ask > > > > > Israeli Prime Minister Benjamin Netanyahu, then ordered all details of their research, study, investigations be stored away for further use in the future.

Anyway onto what happened in Gaza.

13-year-old boy is killed in Gaza

A 13-year-old Palestinian boy in Gaza was fatally shot Thursday, the Gaza Health Ministry said.

A spokesman for the ministry accused the Israel Defense Forces of killing the boy.

"Hameed Abu Daqqa was killed by an Israeli military helicopter after being shot in the head while playing football with his friends east of Khan Younis," ministry spokesman Ashraf al-Qidra told CNN.

This is what started the violence. Shooting a child who is playing soccer from a helicopter is a brutal and inhumane act.

It was clearly intended to provoke a reaction by the Palestinians, who react to the murder of their children in exactly the same way you would.

The Palestinians shot at the IDF soldiers.

Israel retaliated by shooting two more children, then opened fire on the funeral for one of them.

Each act by Israel was intended to provoke the maximum rage in the families of the victims.

Meanwhile, in the United States, all we saw on ABCNNBBCBSFOX was Penisgate, and the first news about Israel and Gaza reported to the American audience was when Gaza fired some rockets into Israel and was portrayed as the unreasonable aggressor who started it all.

Anonymous takes down over 9000 Israeli sites, wipes databases, leaks email addresses and passwords

When the Israel Defense Forces (IDF) this week began taking military action in the Gaza strip against Hamas (as the IDF announced on Twitter), Anonymous declared its own war as part of #OpIsrael.

Among the casualties are thousands of email addresses and passwords, hundreds of Israeli web sites, government-owned as well as privately owned pages, as well as databases belonging to the Bank of Jerusalem and the Ministry of Foreign Affairs.

Post Election Romney and Bain Face a Federal Corruption and Perjury Hearing

Exactly ten days ago, this column reported on a Delaware bankruptcy court's failure to enter an Emergency Motion into the public docket that included Bain Capital and Romney operative's perjury and corruption in the eToys bankruptcy case.

At the time it appeared the judge was protecting Romney and Bain Capital by suppressing the Motion in expectation he would win the election and have the Motion tossed out of court leading to the question; "is Romney's main impetus for seeking the White House to appoint an Attorney General who will guarantee that all charges against him will go away?"

Well now that he lost the election, it appears the allegation had merit because on November 7, the day after his crushing defeat, the Delaware bankruptcy court judge entered the motion into the public docket and scheduled a hearing for December 4, 2012; all on the same day.

Israel's Military Begins Social Media Offensive as Bombs Fall on Gaza

Almost as soon as the Israeli military began bombing Gaza on Wednesday, with residents of the Palestinian enclave documenting the strikes in real time on Twitter, the Israel Defense Forces initiated a social media campaign to defend its actions and goad its enemies.

A Permanent Truce with Israel was Being Negotiated as Assassination of Hamas Leader Occurred

Troubling news has been coming in all week about the escalation of the ongoing conflict between the colony of Israel and the people who happen to live outside of its expanding borders.

Sadly, reports have recently surfaced that a permanent truce was actually being negotiated at the very same time that Israeli military forces assassinated one of the head figures for the Hamas regime.

NYPD Puts Blanket Protection On Israeli Government Buildings, Local Temples

The violence in the Middle East is leading to stepped up security in New York, and some frayed nerves for those with family in Israel.

There are police officers on every corner near the Israeli Consulate on Second Avenue and in front of almost every Jewish temple across the city, CBS 2's Tony Aiello reported Friday.

Israel Looks To Exodus In Gaza Invasion

Not much change is in evidence in Israel's conservative government, however, where leaders keep following the same old narrative to justify each new assault on its weakest Arab neighbour, the neighbour Israel has confined to an outdoor prison.

Responding to the strikes, the Egyptian Brotherhood's Freedom and Justice Party demanded "swift Arab and international action" to stop the Israeli attacks, warning that Israel has to "take into account the changes in the Arab region and especially Egypt," vowing that the new Egyptian government "will not allow the Palestinians to be subjected to Israeli aggression, as in the past."

UPDATE Petraeus finally forced to admit it was a terrorist attack

He could no longer lie about the youtube video BS since a real video of the attack was presented to the senate.

Understand Terrorist Attack – What The Good General is saying (**Black Pope US President Barack Obama**) ordered the CIA to put together an Operation attacking the US Embassy by (**Paid Terrorist on USA Books**) the same ones who were sneaked into Libya to over throw Col. Gaddafi and now moved to Syria to do the same there.

US President Ordered the CIA and others to carry out that attack Killing Ambassador Chris Stevens and all the other staff there at the Embassy.

Thus justifying United States of America to send troops to invade Libya latter and put it all under control for the above people mention.

Obama Begins Push to Confiscate IRA's & 401k's

A representative of the liberal Pension Rights Center, Rebecca Davis, testified that the government needs to get involved because 401k plans and IRAs are unfair to poor people.

She demanded the Obama administration set up a "government-sponsored program administered by the PBGC (the governments' Pension Benefit Guarantee Corporation)."

She proclaimed that even "private annuities are problematic."

Such "reforms" would effectively end private retirement accounts in America, Crone warns.

"These people want the government to require that ultimately all Americans buy these government annuities instead of saving or investing on their own.

The Government could then take these trillions of dollars and redistribute it through this new national retirement system."

We HAVE a "National Retirement System." It's called "Social Security" and it is broke because the government borrowed that cash and can't pay it back!

Gun Confiscation will Fail. 15 Reasons Why It Will Fall Apart.

Gun confiscation will fail in America. Any efforts they try will fall flat on its face.

Tyrants to think they can alter the gun culture that existed for over 300 years is delusional.

The right of the people to be armed has been part of our heritage before America became a republic.

These authoritarians are the enemies to a free people. These power freaks want us disarmed.

Senator Diane Feinstein is calling for strict gun control laws.

She just stirred up a hornets nest.

Her with many gun grabbers want gun confiscation on a major scale.

They want only the government to posses guns.

USA & Israel: Mutual Love of Illegal Kill Lists

Time to set your watches by the predictable and annual flare up of aggression between Israel and the Gaza Strip/Hamas.

In light of the recent events (Israel's extra-judicial assassination of Hamas military chief Ahmad al-Jabari, just hours after agreeing to a cease fire), it seems like a good time to take a look at Obama's love of kill lists, and how we can't condemn Israel's actions.

No matter how vulgar, or in violation of international law they may be.

The U.S. stated that it backed "Israel's right to defend itself," despite Israel breaking the cease fire with the assassination (10 other people were also killed, including two children), which certainly seems as if it's on the offensive side of the dispute.

Why did we support this unlawful violation?

Because if we did otherwise, we would be calling the kettle black.

Very, very black.

Benghazi, Not Petraeus Affair

Benghazi, Not Petraeus Affair, Is Focus at Closed Hearings

NY Times: In closed sessions before the House and Senate Intelligence Committees on Friday, David H. Petraeus apologized to lawmakers about his affair with Paula Broadwell, which led to his resignation last week as the director of the Central Intelligence Agency, but lawmakers said later that they did not ask about the matter.

Instead, the focus of both hearings was the attack on the American diplomatic mission in Benghazi, Libya, two months ago that killed Ambassador J. Christopher Stevens and three other Americans.

Iran ready to double uranium enrichment at Fordo - IAEA

A leaked report by the International Atomic Energy Agency (IAEA) said there were 2,784 centrifuges at Fordo, and that Iran could soon double the number operating from 700 to 1,400.

Iran's progress at Fordo was disclosed in a leaked report based on the findings of the IAEA's inspectors, who visit the facility regularly.

While the uranium enrichment plant is not yet fully operational - with only about 700 of the 3,000 centrifuges the facility is designed in use - experts say it could be within months.

The IAEA report said four new cascades of 174 centrifuges each "having been subjected to vacuum testing, were ready for feeding" with uranium hexafluoride (UF₆) gas.

Once the new cascades were in operation, monthly production of 20%-enriched (medium-enriched) uranium would be about 25kg (55lb) per month, compared with 15kg at present, one official said.

Notice that this is not sourced; no IAEA inspector has signed off on it who is named.

This is all supposition, and allegation, with absolutely ZERO hard evidence of Iranian wrongdoing here.

But the one thing which is terribly troubling, and that is the timing of its release how interesting that it comes just on the heels of Israel characterising Gaza as "the forward base" for Iran.

Iraq urges Arab states to use oil against US, Israel

Iraq has called on energy-rich Arab states to use oil as a weapon to counter the US and Israel, as Tel Aviv steps up its military operation against the Gaza Strip.

Pro-Palestine protesters confront pro-Israel protesters at White House

On the 15th of November, Israel was raining over 100 air strikes on Gaza, killing at least 11 and wounding 116 or more.

Gazans shot back with rockets, killing 4 Israelis with a single direct hit to a building.

That evening, protesters from both sides faced off outside the White House while civilians back home filled the air raid shelters.

Secession Proponents Do Not Want A Civil War; And No, They Cannot Be Stripped Of Their Firearms

Several detractors have claimed that American citizens who sign petitions in favour of secession are advocating a new civil war, and can rightfully be stripped of their firearms.

As the secession movement continues to grow in all 50 states, with the total signatories to petitions approaching one million people, critics on the left and the right have claimed that the motivation of its proponents is to violently rise up.

FHA inches closer and closer to bailout – 1 out of 10 of the \$1 trillion in FHA loan guarantees is in default.

The bailout of the FHA is making its way here during the holiday season.

As we've reported many times the FHA insured loan program was essentially a back door program of getting people into homes with ridiculously low down payments.

FHA defaults were soaring to record levels as herd mentality buyers were entering markets to compete with flippers, foreign money, and Wall Street investors.

Even with low interest rates FHA mortgage insurance premiums increased dramatically but the problems were already too deep.

Essentially new buyers were footing the premium for all the nonsense loans made from 2008 onwards.

So it should come as no surprise that the bailout is getting closer even though housing prices have gone up.

UN Orders Pakistan to Implement Population Control Policies to Limit Growth

The UN has ordered the government of Pakistan to focus on limiting their population by putting state policies into effect that are said to limit population growth.

In official reports speakers at the UN have focused on the issue of distributing free birth control, which is definitely one of the most humane means of limiting population when compared with the more sinister eugenics programs that have been documented in the past.

30 years later: Imagine if the famous Harvard-Yale football game balloon prank was tried this Saturday

Even back in 1982, the astonishing emergence of a large black weather balloon from beneath the field during the annual Harvard-Yale football game was enough to have police officers drawing their guns.

Today?

SWAT teams and bomb squads would be the least of it.

But before we go there and speculate further, here's a short video for those unfamiliar with the prank that was perpetrated by an MIT fraternity.

Israeli Defense Minister Approves Summons of 30,000 Soldiers for Gaza Operation – Report

Israeli Defense Minister Ehud Barak has reportedly approved the summons of 30,000 reserve soldiers.

The troops can be called into action by the military at any point, an IDF spokesman told Israel's Channel 2 TV, as quoted by AFP.

Brigadier General Yoav Mordechai said the army was in the process of expanding the Gaza operation.

"The defence minister approved a few minutes ago, based on the army's request, the recruitment of another 30,000 soldiers.

We will determine how many of them will be called in...all options are on the table," he said

Gaza: America 'enabling' Israeli slaughter

Below are links to ten news items regarding the current military attack on Gaza being mounted by the 'Jewish State of Israel'.

The first two items clearly demonstrate Israel's delight that their servile U.S. lackey supports them in their murderous aggression and slaughter of innocents, and the remainder show the human cost of Israel's malice, and give an idea of what may come next.

It seems clear that Israeli Prime Minister Benjamin Netanyahu is launching the attack to bolster his re-election chances, and may want to use any regional responses to his aggression as an excuse for increased belligerence and perhaps even an attack against Iran.

Asia Sat takes Iranian channels off air in East Asia

The Hong Kong-based Asia Satellite Telecommunications Co. Ltd. (Asia Sat) has taken all Iranian channels off air in East Asia.

The satellite provider says the decision to stop providing services to all Iranian channels is in line with a US law recently signed by President Barack Obama.

On Friday, Obama renewed America's 33-year-old state of emergency against Iran, which gives the president the power to impose sanctions and take other measures in case of an "unusual and extraordinary threat to the national security, foreign policy and economy" of the United States.

Nearly 37 percent of Maissat's shares are owned by the General Electric which itself is owned by an American company

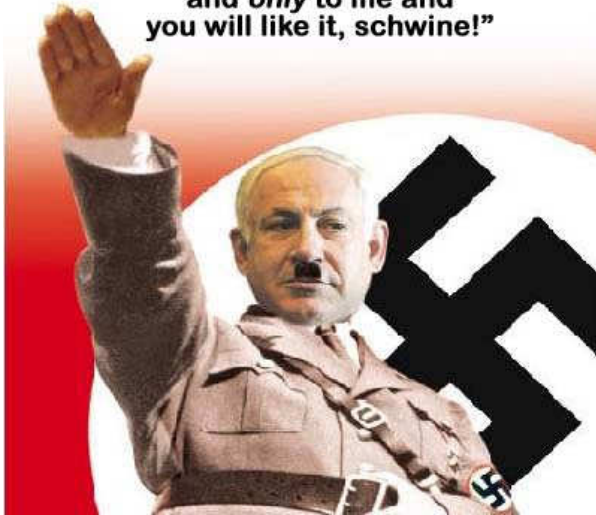

President Obama on Friday renewed America's 33-year-old state of emergency with regard to Iran as lawmakers of both parties prepared a push for crippling sanctions aimed at halting the country's alleged nuclear weapons program. The state of emergency against the country was first declared by President Jimmy Carter in 1979 following the Islamic revolution. It allows the president broad powers to impose sanctions and take other measures in case of an "unusual and extraordinary threat to the national security, foreign policy and economy" of the United States. "Our relations with Iran have not yet returned to normal, and the process of implementing the agreements with Iran, dated Jan. 19, 1981, is still under way," Obama informed the House and Senate on Friday. "For these reasons, I have determined that it is necessary to continue the national emergency declared on Nov. 14, 1979, with respect to Iran, beyond Nov. 14, 2012."

Timing, when it comes to acts of state, is never accidental. And please note that it was just the week before Israel's extrajudicial assassination of a senior Hamas leader.

Secret UN Document Lays Out Plan to Seize Control of Internet

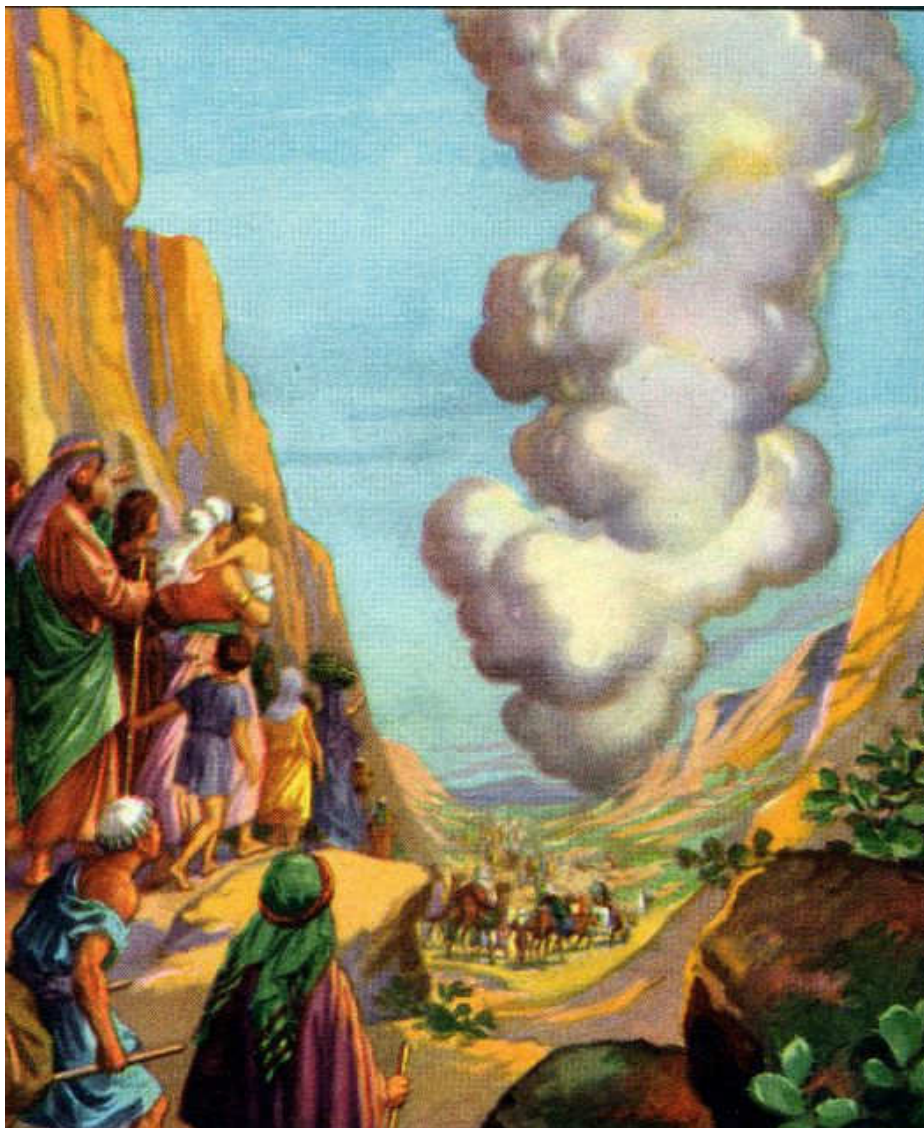

A report by a United Nations organization calls for the international body to seize control of information shared over the Internet should the governments of member nations fail to pass sufficient cyber security regulations.

In the document, called "Trends in Telecommunication Reform Smart Regulation in a Broadband World," the UN's International Telecommunications Union (ITU) points to the spectre of an attack on the cyber infrastructure of a country as justification for the world body's assumption of regulation and monitoring of traffic on the information superhighway.

Is Israel Escalating War on Gaza to Foil US-Iran Deal?

So what does Israel's impending war on defenceless Gaza have to do with Iran diplomacy?

The Tehran bureau chief for the New York Times, Thomas Erdbrink, wrote "Forget ANY Iran-US talks if conflict in Gaza escalates Iran leaders can never be seen as talking to US, while its "eternal" ally Israel assassinates Iran's ideological allies."

This point is not lost on the Israeli leadership.

Is Netanyahu knowingly escalating military tensions with Gaza in order to avoid a successful U.S. diplomatic overture with Iran?

Israel Ranked World's Most Militarised Nation

Israel tops the list of the world's most militarised nations, according to the latest Global Militarisation Index released Tuesday by the Bonn International Centre for Conversion (BICC).

At number 34, Israel's main regional rival, Iran, is far behind. Indeed, every other Near Eastern country, with the exceptions of Yemen (37) and Qatar (43), is more heavily militarised than the Islamic Republic, according to the Index, whose research is funded by the German Federal Ministry for Economic Co-operation and Development.

Israel won't halt Gaza operation until Hamas begs for truce, say officials

Russia will back Egyptian efforts to end Israeli aggression: Putin

Russian President Vladimir Putin says his country will back Egyptian efforts to put an end to the Israeli aggression in the besieged Gaza Strip.

In a telephone conversation with Egyptian President Mohamed Morsi on Friday, Putin said Russia planned to support Cairo's efforts directed at normalizing the situation in the Palestinian territory, the Kremlin said in a statement.

The remarks come after Egypt's Prime Minister Hisham Qandil visited the Gaza Strip on Friday, where he urged the world leaders to stop Tel Aviv's attacks.

Qandil promised to intensify Egypt's efforts to "stop this aggression and achieve a lasting truce."

Putin has just drawn a line in the sand on the issue of Israel's aggression against Gaza.

But the 64,000 dollar question is, are the American people willing to risk outright nuclear war with Russia for the sake of Israel?!?

Chief Rabbi: "I think it has got to do with Iran, actually."

Britain's Chief Rabbi, Lord Sacks, was asked: "Any thoughts on what's going on in Israel and Gaza at the moment?"

The Chief Rabbi replied, "I think it has got to do with Iran, actually."

In what way could Israel's latest war (in all but name) on the Gaza Strip be "to do with Iran"?

Unbelievable! The IDF Has Gamified Its War Blog

Yesterday, when I wrote about the social media campaign that Israel was waging alongside its attack on Hamas, I thought it was interesting.

I thought it was a straightforward and effective way of presenting the cause behind the attack.

Whether you thought the offensive was right or wrong, you had to admit the propaganda's effectiveness.

Well, day two has changed matters.

The IDF Blog now has atrocious gamification badges with points and rewards for sharing the content to social media.

For example, if you visit the site 10 times, you get the "Consistent" badge.

If you search the blog multiple times, you're promoted to "Research Officer."

Yes, Israel has gamified war.

This is absolutely horrendous.

Greece Needs to go "Dirty Harry" On the Troika

Greece has negotiated like the Clint Eastwood that spoke to an empty chair for 10 minutes.

It is time to bring out the Dirty Harry.

Point a magnum at the Troika and tell the "go ahead, make my day'!

Greece has been asking for money in some form or another for almost 3 years now.

It begs and pleads.

It is forced to do things to its people.

Then it is back to begging and pleading.

It is time to stop.

The negotiations have been stupid.

Not once has Greece come up with a credible alternative to more Troika money.

The Troika actually benefits as much, or more from supporting Greece and everyone would be better off if Greece was given real breathing room for a change.

Since the Troika either doesn't see it, or refuses to believe it, it is time to make the Troika see the error of the ways.

Inciting war crimes: Israel minister says force Gaza population into Egypt, cut off water, electricity

An Israeli minister has called for the army to bomb Gaza until the population flees en masse into Egypt's Sinai peninsula, and for water and electricity supplies to be cut, a clear case of incitement to war crimes.

Law Firms Are Taking Drastic Measures Just To Keep Their Heads Above Water

Recovery in the legal industry has been sluggish at best.

And now it seems like firms are resorting to last-ditch efforts to stay afloat.

Gaza assault 'aggression against humanity': Morsi

Egyptian President Mohamed Morsi on Friday branded an Israeli assault on the Gaza Strip in which 23 Palestinians have been killed as a "blatant aggression against humanity," the official MENA news agency said.

"Egypt will not leave Gaza on its own, and what is happening is a blatant aggression against humanity," he said, as his prime minister, Hisham Qandil, visited Gaza vowing to boost efforts to secure a truce to end the bloodletting.

IDF calling up 30,000 reserves ahead of possible Gaza ground operation

The IDF Spokesperson announced on Thursday evening that 30,000 reservists were being called up as Israel prepared for a possible extended ground incursion into Gaza as part of Operation Pillar of Defence.

The large-scale call up is Israel's first since Operation Cast Lead in 2008, and represents a major escalation of the two-day old operation, which is aimed to put a halt to rocket fire on Israel.

"IDF Chief of General Staff Benny Gantz has authorized the army's regular units to prepare for a ground operation," IDF Spokesman Brig.-Gen. Yoav Mordechai told Channel 2 earlier in the day.

As a military commander, one does not call for 30,000 reservists to report for active duty **unless you intend to use them.**

This is not about a "...possible extended ground incursion"; this is about the IDF preparing to wage a DEFINITE extended ground incursion.

The only questions left are those of logistics and timing.

Were I a betting person, I would not bet against this happening to coincide with the American Thanksgiving holiday next week, when Americans will be feasting with families, enjoying sports, and shopping.

However, there is also the possibility that Netanyahu won't wait that long, and the onslaught could begin as early as this weekend.

Hamas launches rocket attack on Jerusalem as pressure mounts on Netanyahu to launch ground invasion

Tanks - which usually lead Israeli incursions - along with troops were reported to be gathering near the Gaza border.

The rockets fired at Jerusalem and other Israeli cities, including the commercial capital Tel Aviv, followed a ratcheting up of strikes on Gaza by the Israeli military.

Sources said that more than 600 targets in the Palestinian enclave had been hit by last night, up from 225 on Thursday evening.16 09:44

Killed Hamas Leader Was In Midst Of Negotiating Long-Term Truce With Israel

Hours before Hamas strongman Ahmed Jabari was assassinated, he received the draft of a permanent truce agreement with Israel, which included mechanisms for maintaining the cease-fire in the case of a flare-up between Israel and the factions in the Gaza Strip.

This, according to Israeli peace activist Gershon Baskin, who helped mediate between Israel and Hamas in the deal to release Gilad Shalit and has since then maintained a relationship with Hamas leaders.

Israel blocks journalists from entering Gaza

Israeli authorities are preventing foreign journalists from entering the Gaza Strip despite promises the Erez crossing would be open Thursday.

During Israel's Cast Lead offensive that began in December 2008, foreign media were banned from entering the Gaza Strip under directives from the army and former GPO head.

IF these reports are true, **a ground invasion of Gaza may well be imminent.**

Thousands protest in Egypt against Gaza attacks

Thousands gathered in Egyptian cities on Friday to protest against Israeli air strikes on the Gaza Strip as Egypt's president vowed to support the enclave's people in the face of "blatant aggression".

Western governments are watching Egypt's response to the attacks for signs of a more assertive stance towards Israel since an Islamist came to power in the Arab world's most populous nation.

Israeli military confirms rocket fired from Gaza strikes outside Jerusalem

The Israeli military confirmed a missile strike outside the ancient Jewish capital there was no details of the precise location or whether anyone was injured."

Who owns this little mongrel?

He should be playing in a sand pit or playing with cars not holding a M – 16 being trained to join **"Satan's Army"**

NOTE: THIS QUOTE HAS ALREADY BEEN DELETED FROM THE ONLINE WASHINGTON POST ARTICLE (although it is being quoted all over the net).

And with good reason.

The Qassam rocket only has a range of 7.5 miles.

And it is 40 miles from Gaza to Jerusalem.

So what I am starting to think is that Israel is firing most of the long-range rockets to bolster the case that Iran is involved.

Again, the common sense rule applies.

Why would anyone in Gaza fire an unguided rocket into Jerusalem knowing that if they hit a Christian shrine that the world's Christians would instantly be enraged into supporting Israel's war agenda?

Certainly Israel has a strong motive to rocket attack Christian shrines, but would Muslims aim at their own Al Aqsa Mosque and Dome of the Rock?

UPDATE: Israel is now saying the rockets "from Gaza" have (as usual) hit empty fields.

Why The States Must Secede To Save America

Radio host Alex Jones today called for a second American Revolution led by states who would secede from the federal government and reconstitute the Republic under the terms of the Declaration of Independence, bill of rights and constitution. (Read the transcript [here](#)).

The call for Americans to rally behind a restoration of the Republic and the bill of rights comes on the back of a burgeoning secessionist movement that has swept the country with residents from all 50 states submitting petitions to the White House calling for states to withdraw from the union and form their own independent governments.

The petitions have received a combined number of signatures totalling over a million.

President Obama Signs 'Secret Directive' On Cyber security

While we're hearing that the Senate is likely to take up (though not pass) the Cyber security Act yet again either today or tomorrow, and the White House is still sitting on a cyber security "executive order," in the meantime it's being reported that President Obama has signed a "secret directive" to allow the military to "act more aggressively to thwart cyber attacks." This is limited to the military, but that means we're talking about the NSA (which is a part of the Defence Department). Considering that it seems to view a stronger offensive effort (i.e., collecting all data) a key part of a strong "defence," this is worrisome.

A Closer Look at New Gaza Conflict

In Washington, the United States lined up behind Israel.

"We support Israel's right to defend itself, and we encourage Israel to continue to take every effort to avoid civilian casualties," said State Department spokesman Mark Toner.

President Barack Obama spoke with Netanyahu and the two men agreed Hamas needs to stop its attacks on Israel to allow tensions to ease, the White House said.

So much for an Obama "New Look."

The new round of violence between Israel and Palestinians in Gaza is receiving the typical U.S. media treatment, blaming Hamas and absolving Israel.

But the origins of the latest clashes are much more complex than that simplistic and one-sided version, writes ex-CIA analyst Paul R. Pillar

Netanyahu's Extremely Risky Gamble

Next Top General in Afghanistan Supports Continuing the War Beyond 2014

The next commander of US forces in Afghanistan, Gen. Joe Dunford, told the Senate on Thursday that he supports continuing the war in Afghanistan beyond 2014.

"In my view our overall objective in Afghanistan after 2014 will be to sustain our hard-won security gains after 2014 so that Afghanistan never again becomes a safe haven for terrorists," Dunford told the senators

Guess What They Are Not Cutting In The Fiscal Cliff

Increasing taxes won't increase their total tax revenue. Politicians have tried this for decades.

It doesn't work.

The only way to increase tax revenue is for the economy to grow... and higher tax rates do not pave this path to prosperity.

Ron Paul was spot on.

Economic ignorance abounds.

And all the Talking Heads in the mainstream media blathering away about the Fiscal Cliff are only reinforcing his premise.

Bottom line-- the Fiscal Cliff doesn't matter.

The US passed the point of no return a long time ago.

Israeli Officials Talk Long War in Gaza, Prepare Invasion

Tanks and armored vehicles poured into southern Israel today while busloads of soldiers were brought to the front, as a ground invasion of the Gaza Strip, the first since early 2009, seems to be coming closer.

Israeli officials have condemned Hamas for retaliating against their attacks, with Benjamin Netanyahu terming the retaliation a “double war crime.”

Officials say if Hamas continues to retaliate they will consider a ground invasion, but others have suggested they will keep launching air strikes whether Hamas reacts or not, and it seems increasingly that the timing of the ground invasion is just a question of getting reservists and other troops into the area, with a decision likely already made.

Despite Global Opposition, United States Votes to Continue Cuban Embargo

In a near unanimous vote at the United Nations General Assembly on Tuesday, the vast majority of the world voted to put an end the U.S. economic embargo against Cuba.

Aside from the moral argument, the driving principles behind the vote to end the embargo were those regarding the sovereign equality of states, non-intervention in internal affairs, and the freedom of international trade and navigation.

In total, 188 countries voted in favour of the resolution, with the U.S., Israel, and Palau voting against it, and the Marshall Islands and the Federated States of Micronesia abstaining.

It was the twenty first consecutive year that the resolution passed by an overwhelming majority in the U.N.

The last time the United States had normal relations with Cuba, the Andy Griffith Show was the most popular show on TV, African Americans couldn't vote, McDonalds only had 228 locations, and Barack Obama would not be born for another year.

Hesham Kandil, Egypt Prime Minister, Rushes To Gaza For Hamas Aid

Egypt's prime minister rushed to the aid of the Gaza Strip's Hamas rulers Friday in the midst of an Israeli offensive there, calling for an end to the operation, as Palestinian rocket squads aimed at Tel Aviv for a second straight day.

The Israeli military seemed to be edging closer to a ground invasion of Gaza on Friday, saying forces were "on standby" and "ready to enter should it be decided that a ground operation is necessary," according to the New York Times.

Most observers have become wearied by Israeli Prime Minister Benjamin Netanyahu's frequently voiced demands that Iran must be attacked because it is a threat to the entire world.

The reality is otherwise, that Iran's theocratic government's security apparatus oppresses mostly its own people and its military lacks the capabilities that would enable it to threaten either Israel or the United States. Israel's government knows that perfectly well and has even conceded that Iran currently has no nuclear weapons program, a viewpoint shared by America's CIA.

It also knows that any attempt by its air force and navy to attack Iran would be fraught with peril, quite likely leading to a regional war in which Israel would sustain considerable damage even if it would ultimately prevail due to its superior armaments provided by the United States.

Israeli army starts drafting 16,000 reservists

The Israeli army started calling up 16,000 reservists on Friday, as officials said the Jewish state was preparing for a possible ground offensive into the Gaza Strip.

"They're distributing emergency call-up notices now, the process has started," an army spokeswoman told AFP.

"As part of Operation Pillar of Defence, the IDF (army) will begin recruiting 16,000 reservists," the military said on its official Twitter feed.

Israeli Defence Minister Ehud Barak on Thursday approved the call-up of 30,000 reserve soldiers, who can be drafted into action by the military at any point, the army's official spokesman said.

Hundreds of anti-Israeli protesters marched in Chicago's loop for hours Thursday to decry Israel's ongoing attacks on Gaza.

"Free, Free Palestine," they chanted as they marched outside the Prudential Building, at 130 E. Randolph St., where President Barack Obama's 2012 campaign headquarters were located.

The location was strategic, as the protesters demonstrated against the Obama Administration's continued support of Israel.

The Worst Economic Numbers In More Than A Year

With everything else that is going on in the world, a lot of people have failed to notice that we are seeing some of the worst economic numbers that we have seen in more than a year.

For example, it was announced on Thursday that initial claims for unemployment benefits have hit their highest level in a year and a half.

Hopefully this is just a temporary blip in the data, because initial unemployment claims tend to have a very strong correlation with the overall performance of the economy.

Three More Palestinians Killed In Gaza, 19 in 24 Hours, 23 Since Saturday

The Israeli army continued its aggression and massive offensive against the civilians in the Gaza Strip, and bombarded on Thursday at night dozens of targets in the besieged coastal region killing three children and wounding several residents.

19 Palestinians have been killed since Wednesday evening, and at least 180 have been injured.

23 Palestinians have been killed since last Saturday; most of the casualties are civilians, children and women.

FLASHBACK 11/11 - New Israeli Escalation
against the Gaza Strip, 7 Palestinians,
Including 3 Children, Killed and 52 Others,
Including 6 Women and 12 Children,
Wounded

Over the past 72 hours, the Israeli Occupation Forces (IOF) have escalated their aerial and ground attacks against the Gaza Strip.

Five Palestinian civilians, including 3 children, have been killed, and 52 others, including 6 women and 12 children, have been wounded.

Four of these deaths and 38 of the injuries resulted from an Israeli attack on a football playground in al-Shoja'iya neighborhood east of Gaza City.

Additionally, 2 members of the Palestinian resistance were killed, and some civilian facilities were destroyed or damaged.

Family mourns Gaza boy shot by Israeli forces while playing football

Thirteen-year-old Muhammad Abu Daqqa vividly recalls the moment his friend and cousin Ahmad Abu Daqqa was killed outside his southeast Gaza home while they were playing football last Thursday afternoon.

"Suddenly, Ahmad fell on the ground and I was surprised to see him sort of bleeding right beneath his heart. An Israeli helicopter was buzzing overhead and other Israeli military jeeps and tanks were seen near the border line," Muhammad explained.

According to the Palestinian Centre for Human Rights (PCHR), the life of the football-obsessed 13-year-old was cut short when a bullet fired by Israeli soldiers stationed nearby hit him in the stomach ("New Israeli escalation against the Gaza Strip," 11 November).

War in Afghanistan has 'failed' and is 'not worth the life of one more soldier', says Paddy Ashdown

It is 'crystal clear' the war in Afghanistan is completely lost and is not worth wasting the life of one more British soldier, Lord Ashdown has said today.

In the 11-year-conflict 438 Britons have died and the former Liberal Democrat leader believes that our armed forces should 'get out now' to avoid any more bloodshed.

The Prime Minister wants to withdraw the 9,000 British troops by the end of 2014 as long as it fits with America's own plans.

But Lord Ashdown says it should be much sooner saying 'the longer it takes, the greater the sacrifice' as more deaths are not in battle, they are at the hands of members of the Afghan police or army.

Caricature Chief Rabbi Sacks Caught off Guard

Chief Rabbi Lord Sacks was caught off guard during a Radio 4 interview this morning when he accused Iran of being part of the Gaza conflict.

Appearing on the Today programme broadcast he was asked by presenter Evans Davis for his reaction to the situation in Gaza immediately after delivering the daily peaceful 'Thought for the Day'.

He initially responded: 'I think it's got to do with Iran, actually.' Rabbi Sacks clearly spoke his mind.

But when the Rabbi was told he was live on air, he quickly changed his spots and responded by making a plea for peace saying: "A continued prayer for peace is needed, not only in Gaza but the whole region."

BBC apologises after Chief Rabbi blames Iran for Gaza conflict

The BBC has apologised to Lord Sacks, the Chief Rabbi, after he suggested the conflict in Gaza was fuelled by tensions over Iran when caught off guard on live radio.

I keep telling you the plan is to drag Iran into this mess Israel created.

MEGA BEX ALERT! Israel tries to lay the blame on Iran!

The military said it targeted more than 100 long- and medium- range rocket launching sites and several launch squads overnight, doing "significant" damage to stockpiles that include Iran-supplied Fajr-5 missiles.

Israel is claiming that Iran has supplied Fajr-5 rockets to whoever inside Gaza is launching them at Israel.

BULL BISCUITS!

Israel's blockade of Gaza is so tight that crayons and musical instruments for Gaza's children cannot get through.

The Fajr-5 is 6 1/2 meters long, and weighs 915 Kilograms. It requires a launcher, which is 10 1/2 meters long.

Think something that big and heavy gets smuggled in through a tunnel?

And common sense applies here. Why would Iran do such a stupid thing?

All it would take is just one of these rockets to be discovered and captured by the Israelis to provide Israel and the US an excuse for an attack.

Yet Israel claims that the Gazans had a multitude of these rockets.

This is an Israeli hoax to drag Iran into conflict and start the long desired war to "dollarize" Iran's oil fields.

Please post this common sense reply everywhere you see this story trying to demonize Iran.
